

"AD22-22DS series LED indicator" High quality indicator lamp Founds xider brand

- Professional manufacture
- Multi-color available

LED SHinning Chip

high brightness
chip

Dustproof film

CE
Certificate

Anti-flaming
plastic material

Product structure Quality details visible

Bright and dazzling Upgrade recognition

Appellation

LED indicator

Type

AD16-22/DS

Switching brightness

>100cd/m²

Applicable voltage

AC12-380V

Packing quantity

10 pcs/box

Hole Size

22MM

Colour

Lifespan

Lighting>30000h

"Smart Material Choices/Selection"

Careful material selection Safe and anti-flaming

High temperature resistance 50°C

Low temperature resistance -12°C

(Indicator light)

Quality

Durable

5 colors available

IP65 protection

3C certification

Product name

Signal light

Product model

AD16 Series

Operating voltage

AC220V

Mounting dimension

22mm

Rated current

<20mA

Frequency of use

50-60Hz

(Indicator light)

Quality

Durable

Our advantage in all details

Upgraded version

General style

1.LED wick strong light transparent

2.Button cover high transparent bright

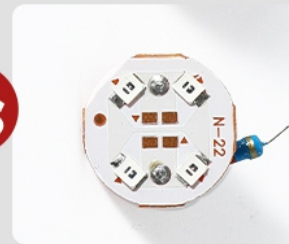

3.Large capacitors have long life

4.Metal film resistance

Vs

1.Ordinary chip, poor light source

Vs

2.The old cap case has poor light transmission

Vs

3.Ordinary capacitors are not durable

Vs

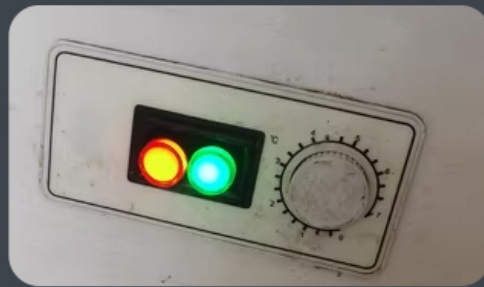

2.Ordinary resistance

Visible peace of mind

CE, ISO, ROHS, CCC, IEC certification

Actural apllication
